Day 2 of Cognizance 2021 started on a bright note with Dr. Varsha Rao enlightening us on getting started with Teeth whitening in our practices. The subsequent sessions on 'CAD-CAMising Orthodontics-The Gen Next Aligner terrain' conducted by our beloved YMT alumni Dr. Viraj Doshi & Dr. Dhaval Fadia was a fantastic introduction to the world of clear aligners. This two day virtual scientific event truly proved that knowledge is indeed beyond boundaries.

SUMMARY:

Even amidst the COVID pandemic, the Department of Conservative dentistry and Endodontics conducted a lecture webinar series under the able guidance of Dr. Vibha Hegde. The guest speakers were Dr. Aarti Bohora and Dr. Yogesh Sahu. There were 100 participants including post graduate students, interns and staff delegates from various institutes in Maharashtra. The workshop was organized on digital platform and was open for participants all over Maharashtra.

The webinar was divided in two sessions,

The first session began with welcome address and introduction of speakers by Dr. Vibha Hegde (Professor and HOD, Department of Conservative Dentistry and Endodontics).

The first lecture by Dr. Yogesh Sahu commenced with the identification of apical root canal curvatures followed by grading their difficulties. The points discussed during the lecture were importance of glide path and different file systems employed for the negotiation of the curved canals.

The second lecture by Dr. Aarti Bohora emphasized on management of deep apical splits. She addressed the participants on role of magnification and use of ultrasonics in identification of apical splits. She highlighted the importance of 3-D obturation in such cases.

SUMMARY:

The workshop was organized on 1st October 2019. The aim of this workshop was to simplify endodontic procedure for undergraduate and fellowship students.

The objective of workshop were

- Achieve correct diagnosis for affected tooth
- Highlight the protocols of cleaning and shaping o Emphasis on 3D obturation
- Protocols of using rotary systems
- Interactive session with participants

The workshop was conducted in 3 main sessions.

The morning first session started with introduction to cleaning and shaping protocols by Dr.Vibha Hegde. Professor and HOD of Department of Conservative Dentistry and Endodontics

The afternoon second session was dedicated to understanding principles of 3D obturation. The session was addressed by Dr. Mrinalini Vaidya Professor of the Department of Conservative Dentistry.

The third session included demonstration to students by teaching staff of the department followed by hands on by the participants. Each participant was given entire kit of rotary file system with endobloc to practice.

The Questions addressed were.

What are the ideal irrigants and frequency and quantity to use during endodontic procedure

What protocols to follow for 3D obturation How to identify and fill lateral canals

What are the best obturating material What are the recent advances in cleaning and shaping

The workshop ended with closing remarks from the representative of the organizing committee. Major strength of this innovative workshop was that participants could access knowledge about advances in endodontic procedures by eminent speakers followed by hands on experience under able guidance of the teaching faculty.

SUMMARY:

The Minimally Invasive Endodontic workshop was conducted on 20 August 2019 by Department of Conservative Dentistry and Endodontics at GD POL Foundation YMT Dental College for intern students of the department.

Aim: To understand the concept of Minimally Invasive Endodontics

Objectives: Use of microscope in routine dentistry Highlight importance of conserving peri-cervical dentine

The workshop was conducted in two sessions.

The first session was introduction to minimally invasive endodontics by Dr. Vibha Hegde Professor and HOD Department of conservative Dentistry and Endodontics

The second session was addressed by guest speaker Dr. Esha Parikh. The speaker elaborated clinical cases of micro restorative dentistry and emphasized on tooth conservation

Questions addressed were

What are the differences between traditional conservative and ultra conservative approach towards endodontics What is the role of magnification in MIE

What is MI protocol for surgical endodontics

The third session was an active discussion between participants and speaker on current concepts in MIE

Closing remarks Organizing secretary highlighted the importance of microscope in routine practice and urged the students to approach dentistry in conservative way.

SUMMARY:

The workshop was organized in two sessions.

First session was addressed by Dr. B Mohan with an introduction lecture on principle of digital dentistry and concepts of smile designing. Objective of the course was to devise comprehensive treatment plan for esthetic procedure, to emphasize on principle of DSD, and interactive discussion on cases of esthetic irregularity.

The second session was hands on digital smile designing on individual laptops with PowerPoint software of DSD.

Major strength of this innovation workshop was that the participants could access knowledge about advances in digital dentistry followed by hands on course.

SUMMARY:

A 3-day yoga sensitization training is conducted followed by regular sessions every alternate month in an academic year. The program is attended by all the students and staff. Mrs. Sailee Pokharkar gracefully and effortlessly demonstrates the ideal techniques to perform different asanas and yogic postures. This relaxing session enlightens the minds of the participants, how yoga is the gateway to happiness that body needs in daily life. This session culminates with the thought of, the very essence of yoga, that "yoga allows you to find inner peace and improve the quality of life".

Agenda:

Day 1 (12/09/2018) Time:11 30 am to 12 15 pm: Basic asanas

Day 2 (13/09/2018) Time:11 30 am to 12 15 pm: Pranayam

Day 3(14/09/2018) Time:11 30 am to 12 15 pm: Suryanamaskar

The first session on first day was addressed by Dr. Dhaval Kesaria Senior Lecturer in Department of conservative Dentistry and endodontics. The lecture emphasized on basics of diagnosis in endodontics.

The second session on first day was addressed by Dr. Vibha Hegde, Professor and HOD, Department of Conservative Dentistry and Endodontics. The lecture comprised of evolution of instruments from hand to rotary instrument and advances in shaping protocols. In same session, the third lecture was addressed by D. Satish Sane, senior lecturer in Department of Conservative Density and Endodontics on obturation protocols.

The questions addressed were

- What are current protocols for cleaning and shaping
- What are the advances in irrigation
- What is the consensus between single visit & multiple visit root canal treatment?

The CDE program awarded 12 Cde points to the participants.

The workshop ended with closing remarks from the representative of the organizing committee. Major strength of this innovative workshop was that participants could access knowledge about advances in endodontics procedures by eminent speakers followed by hands on experience under able guidance of teaching faculty.
